

Sports Nutrition

Colostrum is the very first food produced by nursing mothers after giving birth. ColostrumOne™ is a potent source of this naturally-derived superfood, ethically sourced first day (bovine) colostrum from quality dairies. ColostrumOne is a comprehensive health solution comprised of a multitude of bioactive molecules that help to strengthen and sustain health and vitality at all stages of life. ColostrumOne undergoes stringent testing to ensure consistency of quality, safety, and efficacy. Abundant in immune and growth factors and other important bioactives, ColostrumOne helps the body to strengthen and repair key structures and functions, empowering people to be their most vital selves every day.

Bovine colostrum contains several bioactives that help support sports nutrition

Immunoglobulins

Helps boost the immune system during athletic training¹

Growth Factors

Help reduce exercise-induced muscle damage in athletes²

Growth Factors

Support increased muscle mass³

Claims Supported by Bovine Colostrum Clinical Research

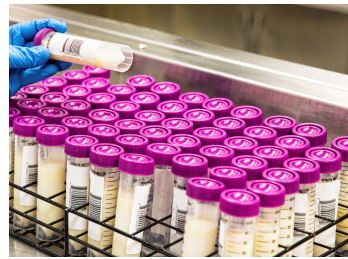

- ➔ Helps improve recovery from exercise.⁴
- ➔ During training, helps improve peak anaerobic power.⁵
- ➔ Supports increased muscle strength.⁶
